S Solutions:

We listen to and understand our customers and provide products and services that meet customer needs

P People:

We value and respect each other, celebrate our successes, work safely and look out for each other

Who We Are

ISAT Unipessoal Limitada is honoured to be a local Timorese registered company; Registration Number 2290 and is a Timor-Leste accredited training organization; Number NNAFF021; delivering high-quality local TVET and international-standard courses that respond to domestic and overseas demands.

ISAT was established in 2012 through a \$ multi-million commitment to offer world-class skilling and work-ready solutions for local Timorese people.

Today, ISAT delivers training courses and skilling programs online, at employer workplaces, at partner facilities and at our modern Skilling and Work-Ready Solutions Centres.

ISAT's customers include Government Agencies, NGOs, Industry Multi-nationals and Private Companies, Universities, High Schools and other training provider partners.

ISAT cultivates ***“local people being trained to international standards by local trainers”***. ISAT offers advanced skilling courses, delivered by Timorese trainers, in either Tetum, Portuguese or English.

Where the TVET National Qualification Framework has not yet developed sufficiently to align with demands, ISAT is meeting those needs by offering international-standard skill sets and short courses through our global partnership arrangements. Where a course requires the engagement of offshore training specialists, ISAT uses those opportunities to advance the skills of local trainers, through “train the trainer”.

ISAT is committed to the continual professional development of its workforce and is very proud that all its workers are local people dedicated to their local communities and helping to grow the future of Timor-Leste. The ISAT Board of Directors is a balance of local knowledge supported by specialist directors. The Board has decreed that the specialist directors do not receive payment, guaranteeing that ISAT maintains its unwavering commitment to invest in the local people, local businesses and national economy of Timor-Leste.

What We Do

We provide industry and international-standard skilling and work-ready solutions through our on-line courses, at employer workplaces, at partner facilities and at our Skilling and Work-Ready Solutions Centres.

These solutions help:

- ✓ you get ready for a job;
- ✓ you get ready for a labour mobility opportunity;
- ✓ you get a better job or a promotion;
- ✓ upskill your existing workforce;
- ✓ you start your own business; and
- ✓ support industry with professional services.

How We Do It

- ✓ We take the time to listen to our customers;
- ✓ We have a Customer Service Team dedicated to understanding the needs of, and adding value to, each customer;
- ✓ We continually review our products and delivery strategies to maintain relevance and meet our customer service promise;
- ✓ We make it easy for our customers to do business with us and us with them; and
- ✓ We embrace strategic growth through the development and wellbeing of our people and ensure every decision we make is a win/win for our customers, stakeholders, strategic alliances and us.

Our Priorities

We are ONE TEAM focused on the needs of our many customers, delivering on our customer service promise, caring for our people and maintaining our financial viability.

Our Capabilities

The ISAT Board of Directors has been strategically selected to enhance the company's mission and vision. The mix of local and specialist knowledge provides ISAT with access to highly skilled local and international educators, proven training resources and materials, human and business networking opportunities and valuable intellectual property. This positions ISAT with an advantage that would otherwise be out of reach to a local Timorese company such as ISAT.

Proud of its local content and commitment to **“local people being trained to international standards by local trainers”**, ISAT also appreciates that, during the period of growth in skilling local Timorese trainers, the delivery of international accredited qualifications requires the input of offshore Subject Matter Expertise to enable ISAT to continue to guarantee that our local Timorese people are exposed to the best local and world-class skilling and work-ready solutions.

Whenever training resources for a course are imported, ISAT ensures that up-and-coming local trainers are also provided with the opportunity to develop their skills and capacities before the departure of the external resource. When available, our local Timorese trainers are also offered the opportunity to develop their skills in overseas learning environments.

ISAT's skilling and work-ready solutions are focused on capacity building in a full participatory environment, as well as project, program and policy advice and support. We take a collaborative and integrated delivery approach, with full consideration to existing skills, gender and cultural factors. ISAT utilises a range of proven methodologies and specialised on-and-off the job experience, combining easy-to-understand theory with hands-on practical tools.

With a wide range of qualifications and non-accredited courses, ISAT offers an extensive range of training courses and skilling programs across a highly flexible and dynamic delivery system of on-line, at employer workplaces, at partner facilities and at ISAT's modern **Skilling and Work-Ready Solutions Centres**. ISAT is constantly adding to the training courses it offers. For the latest offerings, please contact ISAT at info@isat.tl

As the innovators in flexible skilling and work-ready solutions, ISAT understands the importance of **English Language** skills and offers a comprehensive range of courses to prepare students for advanced education or local and international work placements. ISAT also offers a wide range of support services including **Transportable Modular Infrastructure Resources** that can be quickly positioned to support immediate or long-term training and skilling needs, with the benefit of being moved to another location if required.

In support of ISAT's commitment to providing high quality, professional services, ISAT has developed world-class Skilling and Work-Ready Solutions Centres.

Through strategic partnership arrangements with Universities, High Schools, community organizations, other TVET providers and the private sector, ISAT enjoys the availability and utilization of additional facilities and capacity across Timor-Leste and overseas locations.

ISAT and its associates know what is required to own and operate world-class facilities and successfully deliver internationally-recognized, industry-standard skilling and work-ready solutions, employment services and workforce development programs. We boast extensive experience across the globe including:

Argentina, Australia, Brazil, Canada, China, Dubai, Egypt, France, Greece, India, Italy, Israel, Japan, Korea, Malaysia, Mexico, Papua New Guinea, Peru, Philippines, Saudi Arabia, Singapore, Somalia, South Africa, Syria, Thailand, United Kingdom, USA and Vanuatu.
